<b>GRP GRATINGS TATRAGRATE</b> Color			EN

High quality pigment is a part of the Resin Mix.  
We use only pigments which have best value of light fastness and weatherproofness.

Standardly mixes all have **default color RAL 7040**. But it is possible to produce products with any color according RAL palette.

You can choose also your corporate color.  
Product will not fade, not require painting, have great visual effect and improve working efficiency

**EXTRA COLORS without extra cost:**

	RAL code	Description
	RAL 7035 RAL 7040	LIGHT GREY GREY
	RAL 6010	GREEN
	RAL 3020	RED

**EXTRA COLORS with extra cost:**

Performance term of special order is up to one month.  
These pigments may be on stock. Please consult with manager.

	RAL code	Description
	RAL 1018	YELLOW
	RAL 5012	BLUE
	RAL 9004	BLACK

We can change the default color to another, such as corporate color - experts will select the color you want from the RAL palette.  
Performance term of special order is up to one month. More detailed information on request.

**Benefits of color pigment usage:**

- Not fade
- Not require painting
- Great visual effect
- Improve working efficiency
- The penetration of UV-radiation is prevented by using color pigments
